**CORONAVIRUS (COVID-19) STATEMENT**

As social distancing restrictions within the UK are gradually being eased, we would like to inform our clients of the following:

- All K2B Ltd. employees continue to have systems in place to work remotely and will continue to do this with the aim to continue our 24/7 service in which we have always been proud to provide.
- We will continue to work with our suppliers to ensure business continuity within the constraints allowed by the various countries with which we do business.

K2B Ltd. are a distributor of many food ingredients from worldwide sources each with their own practises that they have put in place to ensure that the requirements imposed in their individual countries are adhered to.

Regardless of movement restrictions currently in place K2B Ltd and our manufacturing partners are doing everything possible to be able to meet our delivery obligations in a timely manner. However, it is our duty to inform you that delays in our deliveries may happen due to uncontrollable official restrictions by the various countries' authorities for which we are not in control.

Each of our manufacturers have set up their own method of continuing with supply based on current government demands but in summary they are following the guidelines below:

- Employees are separated where possible by time and space
- Additional hand washing and disinfection procedures and additional sanitising of common areas has been implemented.
- All employees have been instructed to stay home if there are any signs of symptoms.
- Employees are working from home where possible.
- External visitors (including customers, delivery drivers etc.) are reduced to an absolute minimum

Appendix 1 provides a summary of the ingredients we supply and countries of manufacture. Please note there will additional countries of origin for actual ingredients.

If you would like to receive a copy of an individual company's current statement, should there be any questions relating to this statement or if we can be of any other service, please email [technical@k2b.co.uk](mailto:technical@k2b.co.uk)
