

Document Title:

**XINJIANG STATEMENT**

K2B Ltd. is committed to ethical and responsible sourcing of the products that we supply. We are deeply concerned by reports from civil society organisations and media that include accusations of forced labour and discrimination of ethnoreligious minorities in Xinjiang Uyghur Autonomous Region (XUAR).

We are deeply committed to maintaining responsible and ethical practices across our business and seek to uphold and advocate for the fundamental values and human rights of individuals and ethnic groups of all origins.

Any instance of forced detention or suppression of an individual's human rights is unacceptable to us – it not only violates our Ethical Policy, but also stands against our fundamental beliefs as a company.

We can confirm that we do not source any of our ingredients from Xinjiang.

K2B Ltd. continually monitors ongoing any developments in all of our supply chain worldwide. In the event that any changes take place that will affect this statement we will duly investigate and amend this statement as appropriate.

Should there be any questions relating to this statement or if we can be of any other service, please email [technical@k2b.co.uk](mailto:technical@k2b.co.uk)
